

# ZS SERIES

ZS series self-suction pump has the advantages of compact structure, easy operation, stable movement, convenient maintenance, high efficiency, long duration, strong self-suction capacity and no foot valve is required to be installed on the pipeline. Only a certain amount of main fluid must be filled into the pump before working, improving working conditions while simplifying the piping system.

## Technical Data

### Pump Parameters

Capacity up to	l/s	175
Head up to	m	90
Power up to	kW	80

## Pump Curve
